Python Programmer — Backend Web Developer

SUMMARY

Passionate Python Programmer and Backend Web Developer with hands-on experience in developing scalable web applications using Python, FastAPI, PHP, and MySQL. Skilled in designing and integrating RESTful APIs, database management, and building responsive web solutions. Proficient in frontend technologies including HTML, CSS, and JavaScript, with experience using Git/GitHub for version control. Strong problem-solving, logical reasoning, and debugging skills, with a focus on writing clean, maintainable, and efficient code. Eager to contribute to innovative software development projects while continuously learning modern backend technologies.

EDUCATION

IFET College of Engineering

Bachelor of Engineering in Computer Science
2023–2027 **CGPA: 8.6**

St. Joseph's Higher Secondary School, Cuddalore

Higher Secondary Certificate (HSC)
2021–2023 **83%**

SKILLS

- **Programming Languages:** Python, JavaScript, C
- **Backend & Database:** PHP, MySQL
- **Web Development:** HTML, CSS, JavaScript
- **Core Competencies:** Problem Solving, Logical Reasoning, Decision-Making
- **Network Configuration:** IPv4/IPv6, DNS, DHCP
- **Version Control:** Git, GitHub
- **Tools & Technologies:** VS Code, GitHub, XAMPP, PyCharm

ACHIEVEMENTS

Coding & Debugging Competitions

- 1st Place – Code Debugging, NISCOM 2.0 (Mailam Engineering College)
- 1st Place – Pixel Doodle, Techidoodle 2K25 (Sri Ramanujar Engineering College)
- 1st Place – Code Relay & Battle of Brains (IFET College of Engineering)
- 2nd Place – Code Debugging, Strobe 2K24 (Annamalai University)

Hackathons

- Participated in 24-hour hackathons: Hackoholics 5.0 (St. Joseph's Institute of Technology) and Hack-a-Tank 2.0 (SRM Valliammai Engineering College)

Other Achievements

- Gold Star – Python Problem Solving, HackerRank
- 100-Day Learning Streak – Duolingo (Japanese)

PROFESSIONAL EXPERIENCE

Web Developer Intern – AAHA Solutions

Pondicherry — 2024 December – 2024 December

- Built a responsive "Contact and Credential Management System" using HTML, CSS, PHP, and MySQL.
- Used Git for version control and collaborated on debugging and cross-browser testing.
- Maintained documentation and contributed to UI/UX improvements.

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA) – Cisco Networking Academy (2024)
- Python Certification – HackerRank (10 Jan 2025)
- Problem Solving Certification – HackerRank (02 Oct 2024)
- Programming in Java (Elite) – NPTEL SWAYAM, 2025
- Python for Data Science (Elite) – NPTEL SWAYAM, 2025
- Cloud Computing – NPTEL SWAYAM, 2025

PROJECTS

Automatic Rotating Display for Smart Advertising

- Developed an IoT-based smart advertising display that automatically rotates toward nearby users using motion detection sensors, improving advertisement visibility in retail environments.

DeepFake Detection (AI-Based)

- Developed an AI-powered deepfake detection system using deep learning techniques to identify manipulated facial content and enhance digital media authenticity.

Journal Paper Publication (Ongoing)

- Research paper titled "**Vision-Centered Semantic Communication with Intelligent Object Search and Retrieval**" is currently under development for journal publication, focusing on AI-driven semantic communication and intelligent object retrieval techniques.
